

Dear FCC,

I am embarrassed that I have to write to you to request a product not be interrupted that I truly love. I am a subscriber to XM Satellite Radio, and I rely on their service for not only the best in all the genres of music, but also the updates on weather and traffic. It is my prerogative to pay to listen to what I want and not have to worry about listening to all the other stations of music, news and weather that are loaded with annoying commercials and messages.

Writing to you on this Memorial Day and being a Veteran, makes it especially important to me that I keep what is my choice to pay for and listen to. That is what I served this country for and what I believe our great country stands for in these troubled times.

I respectfully request that the FCC rejects the NAB's petition 04-160. Keep my choices free and not dictacted to by others.

I thank you for your time.

Sincerely,

Steve Woznick
